Conference Hotels

Two [Conference hotels](#) have been arranged - both are within walking distance of the conference venue - the University of Calgary, Downtown Campus, Event Centre.

CNIA Executive Board CALL FOR NOMINATIONS

In the twenty years since CNIA was established, much has been done to contribute to and support the progress of nursing informatics across Canada. Through a variety of mechanisms and approaches, the Board actively works to accomplish the [mission, vision and strategic directions of CNIA](#).

Nominate Nurse Leaders to the CNIA Executive Board to assist in setting the direction for Nursing Informatics in Canada.

Meetings are held virtually on a monthly basis.

Nominees must be a CNIA member. To renew or start your CNIA membership, go to the [CNIA Membership](#) page on our website.

The CNIA Executive is accepting nominations for the following positions:

- President-Elect
- Secretary
- Co-Director - Communications
- Co-Director - Membership
- Co-Director - Research

Nominations open now open and will close June 4, 2023 at 11:59pm PDT.

Elections will open June 9th and close June 18th, 2023 at 11:59pm PDT. All members will be emailed a link to a Doodle Poll Election Survey to vote.

Announcement of the new Executive Board will take place at the June Annual General Meeting on June 22nd, 2023.

Learn more about the [Board roles and responsibilities](#).

Download the [nomination form](#) and send the completed form to past-president@cnia.ca.

Research Opportunities

Please see below for 2 research opportunities. Feel free to share these with colleagues.

Caring hearts. Leading minds.

To participate or to learn more about this study, please go to the [study website](#).

Have you ever heard of OurNotes? OurNotes is a US movement, advocating for enhanced communication and collaboration between clients and clinicians. Through OurNotes, clients can complete a pre-visit questionnaire, allowing them to comment on their health progress, their health concerns, and what they would like to discuss in their upcoming clinical visit. Clinicians can then use the pre-visit questionnaire to help structure and inform the clinical consult.

Researchers at the Centre for Addiction and Mental Health (CAMH) in Toronto, Canada, want to understand the benefits and challenges of bringing OurNotes into Canadian mental healthcare settings.

If you are a mental health clinician, patient currently receiving care for their mental health condition or someone who is caring for a loved one with a mental health condition we invite you to participate in a 30-minute virtual interview! All participants will be compensated for their time.

Email strudwick.research@camh.ca to participate or to learn more about the study.

What are your thoughts on patients contributing to their mental health clinical notes?

Bringing OurNotes to Mental Healthcare

OurNotes aims to improve collaboration between patients and clinicians by having a **pre-visit questionnaire available for patients to fill out ahead of their appointment**. In the pre-visit questionnaire, patients can comment on their health progress, their health concerns, and what they would like to discuss in their upcoming clinical visit.

We Want to Hear Your Thoughts!

OurNotes is gaining traction in healthcare settings, however it has not been widely implemented in mental health settings. **Share your thoughts on OurNotes by participating in a brief virtual interview!**

**If you are a mental health clinician, patient,
or caregiver share your thoughts with us!**

Interested in participating?
Contact: strudwick.research@camh.ca

***Compensation will be provided for study participants.**

Version Date: May 8th, 2023

This quality improvement project has been reviewed by Quality Ethics Project Review (QPER) at the Centre for Addiction and Mental Health (CAMH). **CAMH QPER #:** 2023/025

For information about programs and services at CAMH, please visit www.camh.ca or call 416-535-8501 (or 1-800-463-6273).

University
of Victoria

Health Information
Science

The University of Victoria [Health Terminology Standards Certificate Program](http://uvic.ca/hsd/hinf/certificates) is now accepting applications for its fall 2023 cohort. This is a 1-year part-time online program with weekly evening classes and a virtual workshop. Nurses interested in career development can enroll in UVic's certificate program to learn about health standards, clinical terminology standards, and health information exchange and how these and other standards can enhance patient care. Graduates are eligible for the Certified Terminology Standards Specialist credential from the Canadian College of Health Information Management. The application deadline is June 1, 2023 for September 2023 entry.

Healthcare is being transformed today. At the centre of this change is the need for

Healthcare is being transformed today. At the centre of this change is the need for information to be shared. Health information standards are at the core of this important work. In the University of Victoria's [Health Terminology Standards Certificate Program](#) you will learn about the exciting field of standards and interoperability, critical topics for making healthcare more modern and efficient. In this program you will learn about how data is represented, exchanged, standardized, and applied to improve our healthcare systems. You will learn also about the details, challenges, implementations, and acceptance of modern data-driven health information exchange. Begin your journey to becoming health-data expert by joining our accredited online [Health Terminology Standards Certificate Program](#).
