## CNIA Conference June 2023 - A Success!

By all accounts, the conference was a resounding success. With a total of 140 registrants (in-person and virtual combined), hailing from every province and from as far away as Ireland - the sharing and networking were unprecedented.

The CNIA Conference Planning Committee would like to thank all attendees for their participation, passion and commitment. The learnings from all the sessions make it clear that nursing informatics is in great hands in Canada.
