Canadian Nursing Informatics Association
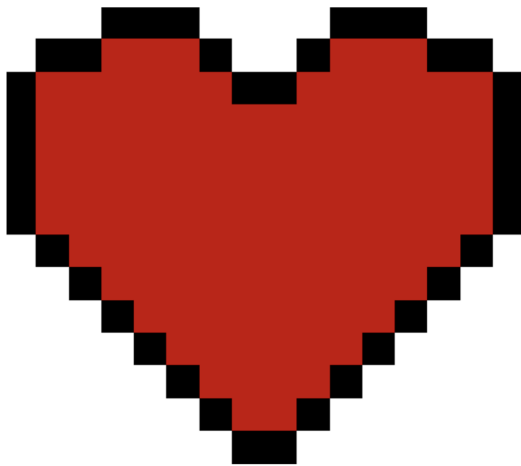

The CNIA Newsblast delivers informatics news from Canada and around the world to our members and subscribers.

Best wishes from CNIA after a year like no other

There is probably not much more that can be said about 2020 that has not already been uttered in many a Zoom meeting or email greeting. As such, we will keep this Newsblast short and sweet.

The CNIA executive are sending each and every one of you the very best wishes for a better year ahead. Our wish for you (and ourselves!) is that this holiday season presents an opportunity to restore energies and perspectives, continue to stay safe, and ready ourselves for the new year. All the best to you and yours.

CNIA Annual Conference 2021 Abstract Call

Nursing Informatics: Integrating Care and Connection in a Digital World

National Nursing Week - May 10-14, 2021
[Concurrent presentations will be on May 12, 2021]

Virtual Conference

Virtual Conference

ABSTRACT SUBMISSION **OPENING SOON**: Submit a 250-word abstract for our national conference event through the CNIA website at: cnia.ca.

ABSTRACT DEADLINE: January 31, 2021 at 23:59 (CST)

You will be notified of review results on March 15, 2021

Conference Themes

- Advancing Nursing Education for Practice in a Digital Age
- Patient Perspectives on Impacts of Digital Health
- Virtual Care
- Nursing Informatics Supporting Care Delivery

Rapid Fire and Poster Presentation abstracts accepted for all themes

CNIA Mission ~ Positively impacting health outcomes by advancing nursing informatics leadership.

CNIA Vision ~ Every nurse, every setting, optimizing informatics and digital health for all

In alignment with our Mission and Vision CNIA invites all submissions related to Integrating Care and Connection in a Digital World from Administrators, Leaders, Practitioners, Policy Makers, Educators, Students, and Researchers.

Invitation to participate in research study:

Nurse Leaders' Self-Perceptions of Informatics Competency: Development and Psychometric Validation of the Informatics Competency Self-assessment for Canadian Nurse Leaders (ICS-CNL)

UNIVERSITY OF ALBERTA

Invitation to Participate in A Research Study Entitled:
Nurse Leaders' Self-Perceptions of Informatics Competency: Development and Psychometric Validation of the Informatics Competency Self-assessment for Canadian Nurse Leaders (ICS-CNL)

Nurse Leaders with human and financial management responsibilities and working in a clinical setting (hospital, homecare, community care, clinic, etc.) are invited to participate in this research study. Nurse leaders may have recognized senior leadership titles (e.g., Chief Nurse Executive, Director, Manager, Supervisor) but may also be individuals with significant decision-making authority in a clinical environment (e.g., Advanced Practice Nurse, Clinical Nurse Specialist, Nurse Educator, Nurse Informatician).

This study aims to:

- Develop the Informatics Competency Self-assessment for Canadian Nurse Leaders (ICS-CNL) based on the nurse leader informatics competencies in Canada.
- Determine nurse leaders' self-perceived informatics competencies.
- Assess the validity and internal consistency of the ICS-CNL

Participation is **VOLUNTARY**. Once you click on Link below, you will be able to view the study information letter and access the online survey. This survey is anonymous and takes 10 - 15 minutes to complete.

Please click on the URL link below to complete survey.

A Research Ethics Board at the University of Alberta has reviewed the study plan (Pro00096334). If you have questions about your rights or how research should be conducted, you can call (780) 492-2615. This office is independent of the researchers.

If you have questions about the survey or research study, or issues with completing the survey, please contact lead investigator, Dr. Manal Kleib at: manal.kleib@ualberta.ca

Thank you in advance for taking the time to participate in this research study!

Please clink on this URL to complete the survey:
